YAMAHA
commercial audio

Since its launch in 2012, the CL-series using Dante™ network protocol can be found at the FOH for prestigious live music & sporting broadcast events, on tour with international artists, as well as installed at various theatres & performance venues.

Why Yamaha chooses Dante™?

- Outstanding Quality
- Easy to Install
- Easy to Integrate
- Easy to Use
- Superior Reliability
- Windows & Mac OS Integration

Yamaha's comprehensive and growing line-up of solutions, provides seamless integration across various applications via Dante™
